About This Game

Adventure calls... but you don't always have time to spend hours optimizing your character sheet or managing your inventory! **One Deck Dungeon** lets you jump right in to bashing down doors, rolling dice, and squashing baddies with style. Get a full roguelike game experience, boiled down to its essence, and captured in a single deck of cards and a handful of dice!

One Deck Dungeon is a dungeon crawling adventure game for one or two players. Each time you play, choose one or two of these 5 brave heroes:

- **Mage** - There's rarely a problem in the dungeon she can't solve with a spell.
- **Warrior** - Her favorite dungeon activity is squashing her opponents immediately.

-
- **Rogue** - Watch in awe as she dispatches monsters with style.
 - **Archer** - Accurate, brilliant, catastrophically deadly.
 - **Paladin** - She seeks out danger and shields her allies from deadly enemies.

After every game, your heroes make progress toward unlocking up to 15 new talents, building up their power for future games.

There are 5 dangerous challenges to face:

- **Dragon's Cave** - The thick-skinned wyvern who occupies this dungeon prefers her heroes on the crispy side.
- **Yeti's Cavern** - If you can survive the freezing winds and biting cold, an abominable snowman awaits.
- **Hydra's Reef** - Chop off one head, and another appears! This regenerating venomous monstrosity is a slippery foe.
- **Lich's Tomb** - Hordes of undead foes, evil curses, and magical wards. What could possibly go wrong?
- **Minotaur's Maze** - Abandon all hope, ye who enter here!

The [Forest of Shadows expansion](#) doubles the content in the game and is available as downloadable content via Steam. It features adventures in all-new lush yet deadly locales. A vast network of mossy underground tunnels and connected forest areas await your heroes!

- 5 new heroes - Alchemist, Druid, Hunter, Slayer, & Warden
- 5 new dungeons - Lair of Indrax, The Mudlands, Realm of Venom, Smoldering Ruins, & The Vile Roots
- A complete new 44-card encounter deck
- Additional progression focuses, basic skills, potions, & more!

Individual expansion cards are available as downloadable content via Steam:

- [Caliana](#) - This faerie has decided that dungeoneering looks fun! Don't let her get bored...
- [Fanatic](#) - A righteous Sentinel is here to smite evil wherever it may lurk!
- [Witch](#) - Her chaotic magic hammer is ready to smash glooping oozes into glooping puddles!
- [Cinder Plains](#) - The Hellhound awaits those reckless enough to venture here...
- [Phoenix's Den](#) - Only the bravest heroes can handle the heat!

Once you know your way around the dungeon, a game takes about 15 minutes. It might take a little longer if you're learning, or a lot shorter if you jump into a pit of spikes.

Warning: do not jump into a pit of spikes.

HELLO! Would it be impolite if I were to nom on your armor and weapons? That shiny metal looks oh so delicious. Oh --pardon me, how rude of me not to introduce myself! I am Glooping Ooze, one of the many extremely polite denizens of the dungeons in this area. I even have my own card:

Like all cards in **One Deck Dungeon**, mine is full of colored boxes, and HEY! What's the idea with all those arrows. Ugh, adventurers. So rude. So very very rude. I suppose you're rolling all your dice, attempting to fill in as many boxes as possible. For every one you don't fill, I'm going to make you pay for this arrow nonsense, in hearts and time! Precious time!

If you manage to get past me somehow, you'll be able to take Armor Crush as a skill, or add that magic icon on the left to your stats, or take the three experience lanterns in the upper-right.

Despite your arrowful attitude, I welcome you to the world of One Deck Dungeon. **Adventure awaits!**

Fun little game, a nice way to change things up.. Great classic adventure game with a well thought out hint and achievement system to keep you interested. Around 8 hours long as well if you do everything!. i dont like it. A beautiful but frustratingly difficult iOS port. What looks to be a calm and relaxing game instead causes groans and hatred. Pick it up if you are interested in the artwork but I cannot recommend this game to anybody but sadists.. Review the game? Can it wait a bit, I'm in the middle of some calibrations.

. Hey i think the game is great and all but i just got a steering wheel and i would like that there would have the capability to have a steering wheel and make the roleplaying that i do and make it more realistic and fun. so yeah it would be nice to add and have the way to do that because you have the power of a controller and the keys on the keyboard. and that i would like that.

Sincerely Gavyn Tomasek / Cammando Gaming. A fun little game that I play when I don't want to have to think too hard, but still want to challenge myself. The controls are simple and easy to use even on a touch pad. This is one of my favorite mindless puzzle games to go to for relaxation. It is easy to get sucked in and just start a new game over and over again until you have spent hours on the game without realizing it.. I'm not saying the book is bad. It is pretty standard fare though.

The reason I'm not recommending it is because the connection to Stellaris is barely there. There are a few instances of name-dropping, but that's basically it.

There are no space battles, nothing about diplomacy or any other key features of Stellaris. Nothing about Precursors, space creatures or anomalies.. Very nice Game Keep it Up

Only a sense of nostalgia would make anyone think this game was good.. Definately a fun little game. The puzzles are interesting and its always fun to have games that does stuff out of the game (like doing google searches, map coordinates etc). The command lines based gameplay also provides a "geeky" feel to the gameplay. The endings and secrets and also pretty amusing (though I kinda expected the standard ending, too much of Portal and AI's that feels a lot like GLaDOS I guess :P). Well, it is useful for practicing your knowledge of kanji. And the simplicity of this game is somewhat charming. But I muted it 20 minutes in, because of music.

In general, this is a good addition for your textbooks or self-study books.. 2 Minutes of original content, the rest is the same levels but with different colors, same level design, different Characters but serves no use in the game. One broken achievement that is obtained as fast you get the first medal in game.

But with ez 100% game and Trading cards it's: V/X. Gameplay Video:

[If you want a VR Game to get your children into VR or if you just like cute cats: This is the game for you.](#)

[A simple puzzle game in which you "sort" cats and replace faulty parts. It's a very simple yet enjoyable game. It comes with a scoreboard to keep track of your achievements as a professional cat sorter.](#)

[Another nice feature that more VR games should have is an option to change your height, so even extremly tall / small people can play the game without going trough the whole VR setup again.](#)

[Overall a fun, cute game. Also: Cat Butts!. This game is a masterpiece. I have no other way of wording it. Mass Effect 2 is everything a space RPG should be.. Early impressions are that it isn't a great clicker game. There are far better ones out there. 24 hour time limit is stupid. As much as I enjoyed seeing pixelized Bernie, I can't recommend it.](#)

This update sucks... blood from your neck!:

The Hollywood Roast will give you nightmares with the newest update. Starring Nosferateen, a fangsty young monster that will bite you with his grim insults (unless you have some roasted garlic at hand). Also, the producers listened to respectable critics and added a bunch of improvements hoping for a higher IMDB score. You see, games can be changed many times after the premiere, while it's not something you do with a movie! (We're talking to you, Mr. George Lucas)

So here's what we added:

- Nosferateen - a new star in the cast! Can you figure out how to unlock him?
- "Late Afternoon Of The Dead" - a new scene that pays homage to classic horrors.
- You can now skip company logos at the beginning.
- Blah blah blah? Fixing missing or incorrect voice bits.
- The order of the dialogues in the Kung Fu scene will now please your master.
- User interface tweaks.
- Scoring tweaks.

. **Achievement Issues:**

We are currently investigating the achievement trigger problems from the latest build. Will patch this up as soon as possible.

Thank your for your understanding.

. **Summer Sale and News:**

Looks like Dawn is ready for summer vacation. If you remember last Christmas, I also did one with that theme. I was going to post this as the main image in the store, but nobody else seems to be doing it.

Omni Link is 20% off right now. A couple weeks back I had a major update so you can play chapters 1-3 now. Although, I don't consider those chapters finished, there is still plenty to play.

I have an announcement I want to give, but it's not ready. Early next month is my estimation. So this is an announcement of the announcement hmm...

Thank you for your positive reviews. Although few, they mean a lot and Omni Link hasn't got much attention. I'm glad to know you are liking the game and look forward to improving based off the feedback I've gotten so far.

Happy Summer!. **Valentines Day Event 2019:**

Immortals!

From February 12th to March 5th, visit the capital park, complete Thais' quests, and receive all the items for a perfect romantic date!

Dark Side of Love. Upcoming Patch:

Hello and Hi!

Right now i'm working on full controller implementation, so for setting up custom Maze ID will be added numpad (temporary design).

Plus for future gameplay changes added new "setup screens" [mostly cosmetics thing]

. Performance Update:

Good performance on all machines!. **The Collector's Edition is out!:**

Finally it's here. The Bear With Me - Collector's Edition is live and kicking. As announced, it contains:

- all three episodes of Bear With Me - with controller support :D
- the full soundtrack
- a 90 page digital art book
- and the complete puzzle & script design docs

http://store.steampowered.com/app/783050/Bear_With_Me_Collectors_Edition/

Hope you will enjoy all of the content as much as it was our pleasure making it. And maybe the controller support is a hint towards what me might be doing next with the Bear With Me series. But that is not all...

Bear With Me - Episode One is now FREE!
